## Important safety instructions

### READ CAREFULLY AND STORE FOR FUTURE USE

- This appliance may be used by children 8 years of age and older and by persons with physical or mental impairments or by inexperienced persons, if they are properly supervised or have been informed about how to use the product in a safe manner and understand the potential dangers.
- Children must not play with the appliance. Cleaning and maintenance performed by the user must not be performed by unsupervised children.
- If the power cord is damaged, have it replaced at a professional service centre or by a similarly qualified person, this will prevent the creation of a dangerous situation. It is forbidden to use the appliance if it has a damaged power cord.
- This appliance is intended for home use. It is not intended for use in locations such as:
  - staff kitchens in stores, offices and other workplaces;
  - agricultural farms;
  - hotel or motel rooms and other living areas;
  - bed and breakfast establishments.
- This appliance is designed for blending food. Do not use it for any other purposes than those intended.

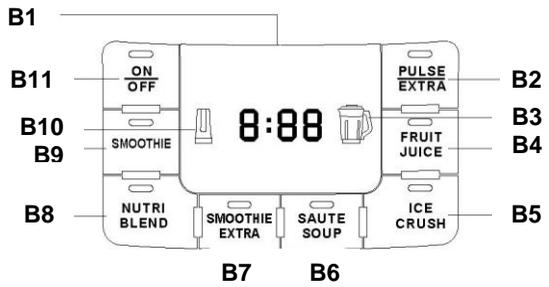

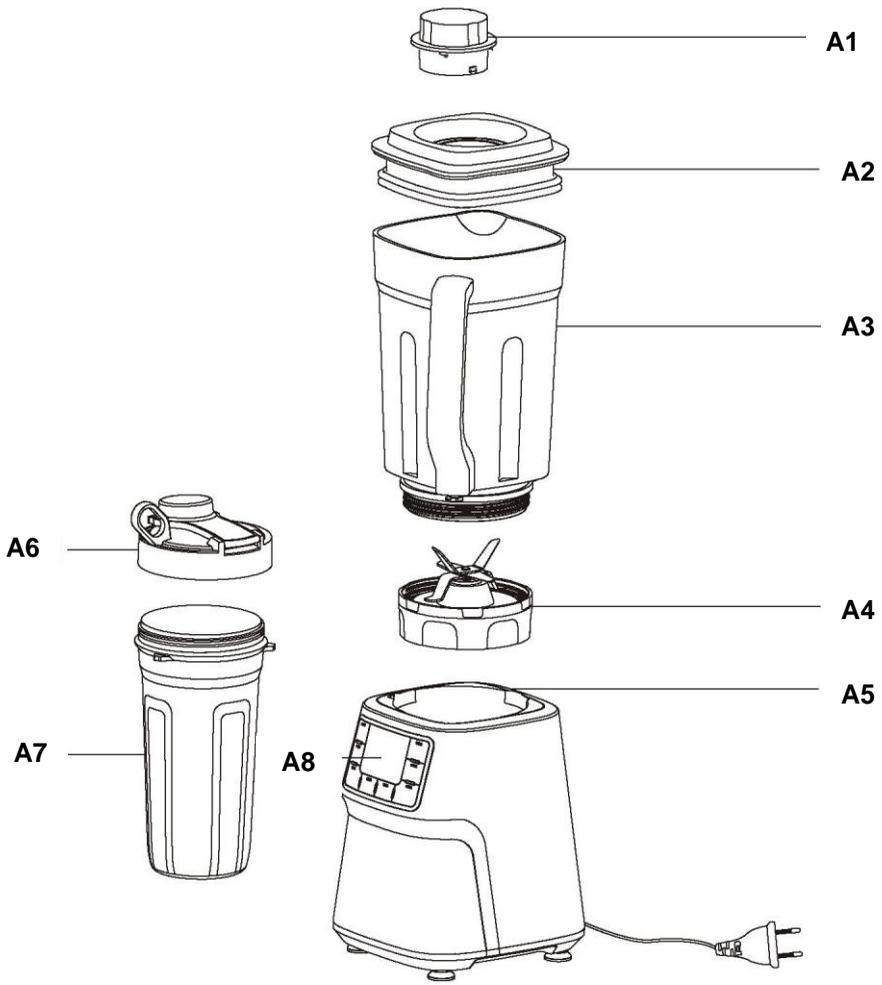

### **Warning:**

Incorrect use may lead to injuries.

- Do not use the appliance in an industrial environment or outdoors.
- Do not place the appliance on an electric or gas stove or in its vicinity, on the edge of a table or on an unstable surface. Only place the appliance on an even, dry and stable surface.
- Before connecting this appliance to a power socket, make sure the voltage stated on its rating label corresponds to the voltage in your power socket.
- Only use the appliance with the original accessories that came with it.
- Do not fill the blender jug past its maximum nominal capacity.
- Make sure that the appliance is correctly assembled before putting it into operation. The appliance is equipped with a safety mechanism that will prevent it from being started unless the removable accessories are seated on the motor unit.
- Do not turn on the appliance when it is empty. Incorrect use of the appliance may negatively affect its lifetime.

- Do not use this appliance with a programmer, timer switch or any other part that turns on the appliance automatically.
- Always observe the maximum mark when filling the jug with ingredients. If you process liquids in the blender jug, the maximum volume is 1.5L. If you process liquids in the storage bottle, the maximum volume is 0.7L. Do not exceed the maximum volume indications, especially when you process ingredients that tend to foam.
- Pay increased attention when handling hot liquids, because they may release steam, or they could spray and cause burns. Allow hot liquids to cool down to a temperature of at least 40°C before pouring them into the blender jug.
- Do not leave the appliance in continuous operation for longer than 3 minutes. Before turning it on again, allow it to cool down for at least 10 minutes. When processing harder foods or thick liquids, do not leave the appliance in continuous operation for longer than 1 minute.
- The appliance is equipped with a thermal fuse protecting the motor from damage in case of overload. If the appliance shuts off as a consequence of the motor being overloaded, disconnect it from the power socket and allow it cool for at least 30 minutes. Then you can put into operation again.
- If ingredients stick to the blade assembly or the inside walls of the blender jug, turn the appliance off and unplug it from the power supply. Make sure that the blade assembly has stopped rotating.
- Take the blending jug assembly off the motor unit and turn it over so that the blade assembly points upwards. Remove the blade assembly and clean the removed parts using a plastic spatula. Assemble the appliance, plug the power cord into a power socket and continue blending.
- When handling the blade assembly, be very careful not to injure yourself on its sharp cutting edge. This applies especially when removing the blade assembly from the blend in g jug, when emptying the Jug and when cleaning.
- While the appliance is running, prevent fingers, hands or objects from contact with the blade assembly.
- The included blending Jugs are not intended for heating food in a microwave oven.
- Always turn off the appliance and disconnect it from the power socket if you will not be using it and if you will be leaving it without supervision, before assembly, disassembly, replacing accessories and before cleaning or moving it.
- Check that the motor unit is turned off, disconnected from the power socket and that the rotating parts have come to a complete stop before removing the blending jug assembly from the motor unit.
- Clean it according to the instructions in chapter “Cleaning and maintenance”. Do not submerge the motor unit or its power cord in water or any other liquid or wash these parts under running water.

- Do not place heavy items on the power cord. Make sure that the power cord does not hang over the edge of a table or that it is not touching a hot surface.
- Disconnect the appliance from the power socket by pulling on the plug never pulling on the power cord. Otherwise, this could damage the power cord or the socket.
- Do not use the appliance when it is not functioning properly or showing any signs of damage. In order to prevent a hazardous situation arising, do not repair the appliance yourself or modify it in any way. Have all repairs performed at an authorized service centre.
- By tampering with the appliance, you risk voiding your legal rights arising from unsatisfactory performance or quality warranty.

# Power Blender

## User's manual

- Prior to using this appliance, please read the user's manual thoroughly, even in cases, when one has already familiarized themselves with previous use of similar types of appliances. Only use the appliance in the manner described in this user's manual. Keep this user's manual in a safe place where it can be easily retrieved for future reference.
- We recommend saving the original cardboard box, packaging material, purchase receipt and responsibility statement of then vendor or warranty card for at least the duration of the legal liability for unsatisfactory performance or quality. In the event of transportation, we recommend that you pack the appliance in the original box from the manufacturer.

### DESCRIPTION OF THE APPLIANCE

- A1** Inner lid-serves as a measuring cup at the same time
- A2** Blender jug lid
- A3** Large 1.5L blender jug
- A4** Blade assembly
- A5** Motor unit
- A6** Storage bottle lid x 2
- A7** 0.7L storage bottle x 2
- A8** Control panel

### DESCRIPTION OF THE CONTROL PANEL

- B1** Display
- B2** PULSE EXTRA button
- B3** Large blender jug icon
- B4** FLOUR/NUTS button
- B5** ICE CRUSH button
- B6** SAUTE SOUP button
- B7** SMOOTHIE EXTRA butt on
- B8** NUTRI BLEND button
- B9** SMOOTHIE button
- B10** Storage bottle icon
- B11** ON/OFF button

## BEFORE FIRST USE

- Before first use, take the appliance and its accessories out of the packaging material and remove all promotional labels and stickers from it. Check that neither the appliance nor any of its parts is damaged.
- All parts (inner lid **A1**, blender jug lid **A2**, large blender jug **A3**, blade assembly **A4**, storage bottle lid **A6**, storage bottle **A7**) that are intended in contact with food rinse out with warm water with the addition of a small amount of neutral dishwashing detergent. Then thoroughly rinse them out using clean water and dry them with a soft cloth.

### Warning:

When cleaning the blade assembly **A4**, be extra careful not to get injured by the blade edges.

- Wipe the motor unit **A5** with a sponge lightly dampened in warm water. Dry them with a clean cloth.

## ASSEMBLING THE BLENDER

- Super blender is delivered with accessories that will help you process your favorite ingredients. You can assembly your blender either with the large blender jug **A3**, or the storage bottle **A7**.

### A. Assembling the blender with the large blender jug

- Before assembling and disassembling of the blender make sure the motor unit **A5** is turned off and disconnected from the power socket and the rotating parts are not in motion.
- Place the motor unit **A5** on a stable, even and dry surface, such as kitchen counter.
- Screw the blade assembly **A4** to the bottom of the blender jug **A3**. Make sure it is firmly and correctly assembled in order not to spill the liquid from the jug.
- Put the ingredients you want to process into the blender jug **A3**. Do not exceed the maximum level mark.
- Place the lid **A2** on the blender jug.  
Insert the inner lid **A1** into the hole in the lid **A2**.
- To place the blender jug **A3** on the motor unit **A5**, align the handle of the blender jug **A3** with the arrow symbol on the motor u nit **A5** and then turn clockwise until you feel resistance.
- Now, insert the power cord plug into the power socket and the blender is ready to use.

**Note:**

To disassemble, proceed in the opposite order.

**B. Assembling the blender with the storage bottle**

- Before assembling and disassembling of the blender make sure the motor unit **A5** is turned off and disconnected from the power socket and the rotating parts are not in motion.
- Place the motor unit **A5** on a stable, even and dry surface, such as kitchen counter.
- Put the ingredients you want to process into the storage bottle **A7**. Do not exceed the maximum level mark.
- Screw the blade assembly **A4** on the storage bottle **A7**. Make sure it is firmly and correctly assembled in order not to spill the liquid from the bottle.
- Turn the storage bottle **A7** upside down and place it on the motor unit **A5**. Projections on the storage bottle **A7** must fit onto the holes in the motor unit **A5**. Turn the storage bottle **A7** clockwise until you feel the resistance.
- Now, insert the power cord plug into the power socket and the blender is ready to use.

**Note:**

To disassemble, proceed in the opposite order.

**Note:**

The blender is provided by a safety lock that ensures you can only switch on the appliance if it is correctly assembled.

## OPERATING THE APPLIANCE

**Processing ingredients**

- Assemble the blender as described in chapter "**A. Assembling the blender with the large blender jug**" if you want to use the large blender Jug **A3** or assemble as described in chapter "**Assembling the blender with the storage bottle**" if you want to use the storage bottle **A7**.
- When you have assembled with the large blender jug **A3**, after inserting the power cord plug into the power socket, the large blender jug icon **B3** will be illuminated on the display **B1** and the control lights of buttons **ON/OFF B11**, **PULSE EXTRA B2**, **FLOUR/NUTS B4**, **ICE CRUSH B5**, **SAUTE SOUP B6**, **SMOOTHIE EXTRA B7** will be illuminated at the same time.

- When you have assembled with the storage bottle **A7**, after inserting the power cord plug into the power socket, the storage bottle icon **B10** will be illuminated on the display **B1** and the control lights of buttons
- **ON/OFF B11**, **NUTRI BLEND B8** and **SMOOTHIE B9** will be illuminated at the same time.
- Press shortly the **ON/OFF B11** button. Press the desired processing button; or use the **PULSE B2** button for short pulse processing at maximum power.
- Once the ingredients are processed, press the **ON/OFF B11** and disconnect the power cord plug from the power socket.
- When you have used the large blender jug **A3**, to remove it from the motor unit **A5**, turn the blender jug **A3** anti-clockwise until the handle of the blender jug **A3** is aligned with the arrow symbol. Then pull it up.
- When you have used the storage bottle **A7**, to remove it from the motor unit **A5**, turn the storage bottle **A7** anti-clockwise and then pull it up.

## Processing table

Program	Duration	Suitable for	Container	Note
Smoothie	50 Seconds	Drinks and smoothie preparation	Storage bottle <b>A7</b>	Blender will run at maximum power at regular intervals.
Smoothie Extra	60 Seconds	Drinks and smoothie preparation	Large blender jug <b>A3</b>	Blender will run at maximum power at regular intervals.
Flour/ Nuts	70 Seconds	Chopping nuts, dried fruit and mill flour	Large blender jug <b>A3</b>	Blender will run at maximum power at regular intervals.
Soup/Saute	140 Seconds	Mixing soups and sauces	Large blender jug <b>A3</b>	Blender will run at maximum power at regular intervals.
Nutri blend	70 Seconds	Thorough process of ingredients	Storage bottle <b>A7</b>	Blender will run at maximum power at regular intervals.
Ice Crush	110 Seconds	Ice crush	Large blender jug <b>A3</b>	Blender will run at maximum power at regular intervals.
<b>Pulse Extra</b>		Processing ingredients at maximum power at short pulses	Large blender jug <b>A3</b> Storage bottle <b>A7</b>	Blender is on only if you press the <b>PULSE B2</b>

## BUILT-IN THERMAL FUSE

- The thermal fuse protects the motor against overheating. If the appliance automatically turns off during operation, unplug the power cord from the power socket. Take the blending jug **A3** or the storage bottle **A7** off the motor unit **A5** and check that the blade assembly **A4** is not blocked by ingredients. Wait approximately 30 minutes until the motor unit **A5** cools down. Then you may continue using the blender.

## SAFETY LOCK

Safety lock protects the appliance from being turned on if it is not properly assembled, especially the large blender jug **A3** or storage bottle **A7**.

## TIPS AND ADVICES

- Cut the ingredients into equal cubes, approx. 1.5cm.
- Do not process dry ingredients (e.g. pepper, beans, corn, etc.) with liquid.
- If the ingredients become too thick in the jug, add more liquid.
- If you process large quantity of ingredients, divide them into smaller batches. Process food in shorter intervals.
- If you process ingredients more than 3 minutes continuously, the appliance will automatically turn off. It is a normal phenomenon. Disconnect the power cord plug from the power outlet, let the appliance cool down. Otherwise it can be damaged.
- Do not pour hot or warm ingredients into the large blender **A3** or storage bottle **A7**. Make sure the temperate of processed ingredients reaches maximum 40°C.
- If you process ingredients exceed the volume of 1500 ml for blender jug **A3** and 700 ml for storage bottle **A7**, immediately turn the appliance off.
- If you process ingredients that can foam, such as milk or soya milk, do not process more than 800 ml for blender jug **A3** and 300 ml for storage bottle **A7**.

## RECIPES

### Super Green Smoothie

10 parsley leaves

200g cucumber

40g celery stick

100g apple

1tsp spirulina (optional)

4g fresh ginger

Pinch cayenne pepper

20g lemon juice

100ml water

Put all ingredient into the storage bottle **A7** and process using the

**SMOOTHIE B9** button.

### **Strawberry red cabbage smoothie**

100g red cabbage

100g carrot

10 strawberries (stem removed)

1 lime (peel removed)

300 ml coconut milk

Put all ingredients into the storage bottle **A7** and process using the **SMOOTHIE B9** button.

### **Yogurt cherry**

1 red bell pepper (stalk and seeds removed)

20 cherry (stone removed, frozen)

1 orange (peeled)

1/2 lime (peel removed)

180 ml water

180 ml yogurt

Put all ingredients into the storage bottle **A7** and process using the **SMOOTHIE B9** button.

### **Apricot passion fruit**

1/2 corn (cooked or canned)

1 passion Fruit

3 apricot (dried)

1/2 lemon (peel removed)

250 ml coconut milk

4 string mint (garnish)

Put all ingredients into the storage bottle **A7** and process using the **NUTRI BLEND B8** button.

Celery coco nut

2 celery stalks

150g celeriac (peeled)

200 ml ice cube

200 ml coconut milk

6 Sprig mint (garnish)

2 tsp honey

1 tip vanilla

1/2 tsp cinnamon

Put all ingredients into the storage bottle **A7** and process using the **NUTRI BLEND B8** button.

### **Watercress avocado**

60 g watercress  
1/2 green bell pepper  
1 cucumber  
1 avocados {peeled and pit removed}  
1 lime  
300 ml water  
1.5 cm ginger

Put all ingredients into the storage bottle **A7** and process using the **NUTRI BLEND B8** button.

### **Apple, pear and kale**

2 celery stalks  
1 green apple (core removed)  
1 pear ((one removed)  
1 lime (peeled)  
200 ml water

Put all ingredients into the storage bottle **A7** and process using the **NUTRI BLEND B8** button,

### **Watermelon slush**

600g frozen watermelon  
300g frozen peach  
1 tsp honey

Put all ingredients into the blender jug **A3** and process using the **SMOOTHIE EXTRA B7** button.

### **Red cabbage and apple smoothie**

80g red cabbage  
1 plum (stone removed)  
1 red apples (core removed)  
200ml water  
200ml yogurt  
50g oatmeal (garnish)

Put all ingredients into the blender jug **A3** and process using the **SMOOTHIE EXTRA B7** button.

### **Pineapple mango smoothie**

300g pineapple  
1 mango (cored, chopped)  
2 yellow apples (core removed)  
1 lemon (peel removed)  
100 ml coconut water  
6 spring mint (garnish)

Put all ingredients into the blender jug **A3** and process using the

**SMOOTHIE EXTRA B7** button.

### **Peach soother smoothie**

250 g frozen peaches  
300 g pears (cored, chopped)  
250 g plain non-fat kefir  
200g non-fat yogurt  
2 tsp ginger (peeled)  
2 tsp ground linseed

Put all ingredients into the blender Jug **A3** and process using the **SMOOTHIE EXTRA B7** butt on.

### **Avocado smoothie**

1 avocado (pitted, peeled)  
1 banana  
300 g frozen pineapple  
500 g coconut water

Put all ingredients into the blender Jug A3 and process using the **SMOOTHIE EXTRA B7** butt on.

### **Sweet potato and orange soup**

100 g carrots  
5 g fresh ginger  
30 celery stalk  
1 tbsp coconut oil (heat until soft)  
1/4 orange, zest and juice  
400 g sweet potatoes  
2 spring thyme  
100 ml coconut milk  
350 ml vegetable stock  
1-1/2 tbsp coriander leaves  
1/6 tsp sea salt

Put all ingredients into the blender Jug **A3** and process using the **SAUTE SOUP B6** butt on.

### **Cashew honey nectar smoothie**

300 g cooked sweet potatoes (cooled)  
50 g cashews  
2 tsp hones  
600 g pear nectar  
1/3 tsp ground nutmeg  
200 g non-fat yogurt

Put all ingredients into the blender jug **A3** and process using **SAUTE SOUP B6** button.

### **Banana & oat**

1 small banana

300 ml cooked oatmeal (cool)

1 tsp walnuts

1 tsp sugar-free maple syrup

1/3 tsp ground cinnamon

450 ml fat-free milk

300 ml non-fat plain yogurt

Put all ingredients into the blender jug **A3** and process the **SAUTE SOUP B6** button.

### **Spicy pineapple recharge**

110ml ice cube

150 ml orange juice

450 g fresh pineapple

1/2 lime (peeled, seed removed)

20 g fresh ginger (peeled)

1/4 small jalapenos pepper (seeded)

Put all ingredients into the blender Jug **A3** and process using the **ICE CRUSH B5** button.

### **Lean Green**

120ml ice cube

120ml coconut water

1/2 small banana

120g fresh mana

120g kale (stems removed)

120g baby spinach

Put all the ingredients into the blender jug **A3** and process using the **ICE CRUSH B5** button.

### **Great detoxifying drink**

230 ml ice cube

400 ml water

200 g green seedless grapes

100 g cucumber

150 g kale (stems removed)

80 g apple (core removed)

Put all ingredients into the blender Jug **A3** and process using the **ICE CRUSH B5** button.

### **Chocolate almond fusion**

230 ml ice cube

350 g almond milk

1 tsp agave nectar

1 tsp almond butter

2 tsp unsweetened cocoa powder

1 banana

230 g kale (stems removed)

Put all ingredients into the blender Jug **A3** and process using the **ICE CRUSH B5** butt on.

## CLEANING AND MAINTENANCE

- Before cleaning, disconnect the power cord plug from the power outlet and let the appliance cool down.
- It is important to clean the large blender jug **A3** and storage bottle **A7** straight after use.
- For cleaning, do not use cleaning product with an abrasive effect solvents, etc. that could damage the appliance.  
No part of this appliance is intended washing in a dishwasher.

### Warning:

To prevent the risk of injury by electrical shock, do not submerge the appliance, power cord or power plug into water or another liquid.

### Quick cleaning of the blender jug

- We recommend running the quick cleaning of the blender jug **A3** straight after use.
- Pour clean and cold water into the blender jug **A3** up to the maximum level mark. Add a small amount of neutral dishwashing detergent and place the lid **A2** with inner lid **A1** inserted.
- Place the blender jug **A3** on the motor unit **A5** and connect the power cord plug into the power socket.
- Press and hold the **PULSE EXTRA B2** button for approx. 3 seconds, then release the button. Repeat the process several times. You can remove the ingredients from the blade assembly **A4** and blender walls using the short pulses.
- Disconnect the power cord plug from the power socket and remove the blender jug **A3** from the motor unit **A5**.
- Pour out the content of the blender jug **A3**.

### Cleaning the blender jug and lid

- After running the quick cleaning, unscrew the blade assembly **A4**.
- Wash the blender jug **A3**, lid **A2**, inner lid **A1** and blade assembly **A4** in warm water with a small amount of neutral dishwashing detergent using a soft sponge. Rinse and dry thoroughly.
- You can wash these parts except for **A4** in upper basket of the dishwasher.

**Warning:**

Be extremely careful when handling the blade assembly **A4**. The unit **A4** knives are very sharp.

**Cleaning the storage bottle and lid**

- Wash storage bottle **A7** and lid **A6** in warm water with a small amount of neutral dishwashing detergent using a soft sponge. Rinse and dry thoroughly.
- You can wash these parts in upper basket of the dishwasher.

**Cleaning the motor unit**

- Wipe the motor unit **A5** with a sponge lightly dampened in warm water. Dry them with a clean cloth.

**Warning:**

Before removing the large blender jug **A3** or storage bottle **A7**, always make sure the blade assembly **A4** is completely stopped and knives are not rotating.

**Storage**

- When not using the appliance for an extended period of time, disconnect the power cord plug from the power socket, allow the appliance to cool down and clean it according to the instructions in chapter "Cleaning and maintenance"
- Before storing it, check that the appliance and all its accessories are thoroughly clean and dry.
- Store the appliance in a dry, clean and well-ventilated location not exposed to extreme temperatures and out of children's or animal's reach.

**TECHNICAL SPECIFICATIONS**

Rated voltage range .....	220-240 V~
Rated frequency .....	50-60 Hz
Rated input .....	1500W
Noise level.....	85 dB (A)

The declared noise emission level of the appliance is 85 dB (A), which represents a level A of acoustic power with respect to a reference acoustic power of 1 PW.

**Safety class for electrical shock protection:**

Class II - Electrical shock protection is provided by double or heavy-duty insulation

We reserve the right to change text and technical specifications.

## ENVIRONMENT FRIENDLY DISPOSAL

Do not throw away the appliance with the normal household waste at the end of its life, but hand it in at an official collection point for recycling. By doing this, you help to preserve the environment.

BALZANO products are intended for household use only  
BALZANO has policy of continuous improvement in product quality and design. The company, therefore reserves the right to change the specification of its model at any time.
